PROFILE SUMMARY

AI-focused Computer Science graduate with hands-on experience in Machine Learning, Data Analysis, Python, SQL, and Generative AI applications. Built predictive models using Scikit-Learn and developed AI-powered applications using OpenAI APIs. Passionate about solving real-world problems through data-driven solutions and seeking opportunities to apply ML and GenAI skills in industry projects.

EDUCATION

Bachelor of Engineering(B-Tech CSE), Galgotias University	2022-2025
Diploma in CSE ,Galgotias University	2019-2021
High School R K Public School, kithore (MEERUT)	2017

TECHNICAL SKILLS

- **Deep Learning:** PyTorch, CNN(Basics) , Model Training
- **NLP/LLMs:** Transformers, BERT, GPT, Tensor flow
- **Data Science/ML:** Scikit-learn, Pandas, NumPy, OpenCV
- **Deployment:** FastAPI, Streamlit, Docker, AWS Sagemaker
- **MLOps:** MLflow, DVC, Airflow, CloudWatch
- **Programming:** Python, SQL ,Javascript, Web Technology
- **Visualization:** Matplotlib, Seaborn , Streamlit
- **Supporting:** Power BI, Postman, MongoDB

COURSES & CERTIFICATIONS

- AWS Cloud Computing TMF
- GenAI Powered Data Analytics -Forge

INTERNSHIPS

Brainwave Matrix Solution

Python Intern

- Assist in developing a Django-based internal dashboard for productivity tracking.
- Automated backend data-processing workflows using Python.
- Collaborated with development teams using Git version control.
- Participated modern web development practices to improve application quality.

PROJECTS

AI Trip Planner | (AI-powered trip planning application using OpenAI API)

GitHub : <https://github.com/aamirsalam97-design/AI-Trip-Planner>

- Developed an **AI-powered trip planning application** that generates personalized travel itineraries based on user preferences.
- Integrated the **OpenAI API** to provide intelligent destination recommendations, travel plans, and trip suggestions.
- Built a responsive full-stack web application using **Node.js, Express.js, JavaScript, HTML, and CSS**.

Fake News Detection using Machine Learning | (Python, Scikit-learn, NLP, TF-IDF, Pandas, NumPy)

GitHub: <https://github.com/aamirsalam97-design/your-repository-name> | **Live Demo:** <https://your-demo-link>

- Performed **data cleaning, text preprocessing, and TF-IDF feature extraction** to improve model performance.
- Trained and evaluated the model using **Scikit-learn**, measuring performance with **Accuracy, Precision, Recall, and F1-Score**.
